### Explanation of Soil Test:

**Routine Test 1:** Available Phosphorus, Exchangeable Potassium, Magnesium and Calcium, Soil pH (Water & Buffer), Cation Exchange Capacity and Percent Base Saturation of Cation Elements. PLUS ANY TWO OF: BORON, ZINC, MANGANESE, IRON, COPPER. (CHECK ELEMENTS DESIRED UNDER INDIVIDUAL).

**Basic Test 2:** Available Phosphorus, Exchangeable Potassium, Magnesium and Calcium, Soil pH (Water & Buffer), Cation Exchange Capacity and Percent Base Saturation of Cation Elements.

**Basic Test 3:** Available Phosphorus, Exchangeable Potassium, Magnesium and Calcium, Soil pH (Water & Buffer), Cation Exchange Capacity and Percent Base Saturation of Cation Elements. PLUS ANY FOUR OF: ZINC, MANGANESE, IRON, COPPER, BORON (CHECK ELEMENTS DESIRED UNDER INDIVIDUAL).

**Basic Test 4:** Available Phosphorus, Exchangeable Potassium, Magnesium and Calcium, Soil pH (Water & Buffer), Cation Exchange Capacity and Percent Base Saturation of Cation Elements. PLUS SULFATE SULFUR, BORON, ZINC, MANGANESE, IRON and COPPER.

**Organic Matter:** % Organic Matter.

**Soil Texture:** %Sand, %Clay, %Silt, and Soil Classification.

**Soluble Salts:** Soluble Salt Content.

**Other:** List any element from above or Aluminum, Sodium, Molybdenum or Chloride.

### Explanation of Nematode Test:

**Nematode Assay: Soil:** Complete Parasitic Count.

**Roots:** Complete Parasitic Count.

### Explanation of Plant Tissue Test:

**Basic Test:** Nitrogen, Phosphorus, Potassium, Magnesium, Calcium, Sulfur, Boron, Zinc, Manganese, Iron and Copper.

**Other:** List any element from above or Aluminum, Sodium, Molybdenum or Chloride.
